Subject: GKM SAP-QAPP initial draft

All,

Please find attached the SAP/QAPP for the Gold King Mine Blowout project. Some items to call to your attention:

1. This is a standalone document that does not require cross-referencing to the ER/Removal program generic QAPP
2. As always, the UFP-QAPP format is difficult so we added a 1 page Executive Summary. Goal was to provide you a simple item that could even be pulled out so let us know if you have thoughts on changes/additions to it that would help you interacting with the public, etc.
3. Since a lot of field tasking is in flux, we tried to provide enough information but with flexibility to allow for field tasking changes.
4. Region 8 QA program crosswalk is included as Attachment A.

5. Region 8 Site specific data management plan is included as Attachment B.

I'm attaching the individual Word and Excel files for your use as well as a combined PDF file of the whole thing assembled.

Thanks,

Mark

Mark Blanchard
